FULL RANGE OF PRODUCTS

Enjoy the World Class Performance from China's No.1 Logistics Equipment Supplier

SANY Reach Stacker has been used in ports, wharfs and storage yards to handle, transfer and stack various container and other materials. It features inbuilt functions in safe, reliable, and energy saving with world-leading technologies such as dynamic anti-rollover protection, anti-collision of the spreaders, vertical lift of the booms, patented technology of power driven counterweight and automatic fire extinguisher.

With our full product line up of heavy, overweight hurdling, light, empty container and off-road reach stackers, SANY Reach Stacker can be your solid partner in logistics, energy, chemical engineering, wind power and forestry, bringing you the peace of mind while getting the most out of the job site.

SAFE AND RELIABLE

Jointly Designed by China and Germany,
Excellent Quality Assured

- 1 Anti-Rollover Protection**
Adopt intelligent control technology, detect real-time working condition and control traveling speed with the changing height of load to prevent the rollover.
- 2 Anti-Collision Protection of the Spreaders while Revolving**
Intelligent control of the positions of spreaders and booms can effectively prevent collision among the spreader, frame and boom, avoiding accidents by wrong operation and significantly reducing the working intensity.
- 3 Automatic Fire Extinguisher**
The pipeline network automatic fire extinguisher comes with the strong spray can activate the fire alarm, anti-flaming and fire extinction functions to ensure the safety of the operator.
- 4 Solid Tire Flexible Shock Absorption Technology**
Provide solid tyre flexible damping system according to customers' needs to achieve safer operation and lower maintenance cost. Combined with flexible shock absorption technology, it significantly reduced the shocking load, raised operation comfort and extended the service life of the components.
- 5 Automatic Braking Technology while Reversing**
Adopting technologies such as laser scanning and graphic identification, the reach stacker can precisely detect people or obstacles within the driving route and then automatically brakes to prevent accidents. It is highly intelligent with active safety.

- 6 Advanced Structure Design**
Jointly designed by the technical teams from China and Germany, the equipment is assured to be highly reliable and endurable by adopting full-digit prototype design system, going through FEA, dynamics simulation analysis, as well as strict endurance and vibration tests.

- 7 Reliable Power System**
Equipped with world famous engines such as VOLVO and CUMMINS which are quite reliable, and have strong power, combining the advanced power matching and control technology, the equipment is greatly optimized in dynamic performance. Multiple protections for engine and gearbox: scientifically protect the engine's start-stop, operation and gearbox shifting to extend its service life.

HIGH-EFFICIENCY

1 Boom Vertical Lifting Technology

The intelligent controller detects the boom parameters in real time, automatically calculates and adjusts the boom posture, ensures the vertical lifting throughout the operation, makes stacking safer, and greatly improves work efficiency

2 Efficient Control

The centralized operating handle has excellent micro-motion performance, and easily realizes millimeter-level precise control; all movements of the spreader adopts proportional control, giving you a man-machine integrated operation experience; the whole machine has a multi-action linkage design to achieve fast and efficient operation.

3 Comfortable Operation

The operator-oriented design includes an all-round visibility for different working conditions. The controlling devices are placed in designated positions to ease the fatigue of operators.

4 Bulk Container Loading and Unloading Technology

Reach stacker for bulk container loading and unloading was developed, which broke through the bottleneck of bulk container handling technology, simplified the process of container loading and unloading, and greatly improved operation efficiency and environmental performance.

ENERGY-SAVING

- 1 Hydraulic Load Sensing System**
Automatically adjust the pump displacement according to the load, realizing high precision flow control. The effect of energy saving and consumption reduction is remarkable.
- 2 Dynamic Power Matching Control System**
Automatically recognize dynamic power according to load change and adjust engine speed. The output power automatically adjust to load and work conditions, greatly reducing energy consumption.
- 3 Lightweight Design**
Optimize the structure to make it lighter and stronger.

SRSC45E

All-Electric Reach Stacker

Scan for Demo

Scan for VR

1 Long Battery Life

Self-power supply

When the battery cannot be charged, the range extender can be turned on to ensure that the electric reach stacker can work for 20 hours.

Energy-saving recycling

With potential energy recovery technology, the descending process can feed back electrical energy to improve battery life.

High efficiency and low consumption

Optimized design of hydraulic system, low pressure loss, direct motor drive, high efficiency.

2 High Efficiency

Precise control

The motor drives the electronically controlled pump system, the action flow can be accurately distributed, and the action control is more precise.

Excellent linkage

Boom stretching and hoisting, spreader action and moving are driven by different motors, and the linkage effect is good.

Comfortable driving

The driving is directly driven by dual motors, with fast acceleration response, stepless speed regulation, no shift shock, and easy operation.

3 Fast Charging

Dual gun charging

The product retains the dual-gun charging port, which meets the national standard: GBT 20234.1-2015

Through the market numerous verification, technology is mature and reliable. high-power fast charging, covebient for customers to deploy equipment.

4 Cost Saving

Save RMB 197,000 within 1 Year

Save RMB 985,000 within 5 Years

(Under mixed operating conditions with activated range extender)

Configuration Parameter

Configuration		Unit	SRSC45E
Power Battery	Type	—	Lithium Iron Phosphate
	Capacity	Ah	456
	Rated Storage Energy	kWh	268.7
	Nominal Voltage	V	589.26
	Thermal Management Way	—	Heat: Heating film Cooling: Liquid Cooling
	Max Continuous Discharge Power	KW	268
Motor	Type	—	Permanent Magnet Synchronous Motor
	Output Torque (Rated/Peak)	Nm	1860/4000
	Output Power (Rated/Peak)	KW	210/400
	Output Rotate Speed (Rated/Peak)	RPM	1078/3500
	Cooling Method	—	Liquid Cooling
Drive Axle			
Range Extender	FISG Motor Power	KW	75
	Cooling Method	—	Liquid Cooling
	Engine Power	KW	92
	Emission Standard		Comply with GB20891-2014 Stage IV Emission Limit Requirements

NEW V – SHAPED FRONT LIFT

Nine Core Advantages

- Configurable imported 5-speed automatic transmission: proportional shift gears, smoother shifting, good comfort and better power performance after matching with the engine.
- Equipped with Sany's new generation hydraulic energy-saving system, combined with engine load precise control system, the energy-saving mode saves 15% fuel under testing conditions.
- Equipped with spreader proportional hydraulic system, with micro-control to improve the box operation.
- Equipped with higher air intake and air intake pre-filter, long air filter life, engine is safer, equipped with ring fire extinguisher, reversing radar, reversing rear view system, safer to use.
- Distributed control system: excellent operation action response, reduced from 800ms to 400ms CAN bus layout, bus buttons, electric proportional handle, higher reliability.
- Classic square section boom
- The wide-section frame and H-type spreader have passed the high-strength fatigue test.

Highlighted Features

01

Energy saving

Fuel consumption under testing conditions is reduced by 15% compared to the original model
Equipped with high intake pre-filter, long life of filter element and low maintenance cost;
The whole vehicle LED energy-saving lamp has a longer life;

02

Efficiency

Fuel
faster

03

Reliability

After over 10 years' R&D, the quality is excellent;
30,000 hours fatigue test of structural parts;
Ring automatic fire extinguishing system;

45t Container Spreader

SANY 45T container spreader is used in reach stacker to stack, load or unload ISO standard 20', 40' and 45' containers. Based on market needs, Sany Port Machinery has developed numerous container spreaders of reasonable structure with good design, strong safety protection function and cost effective, sufficiently meeting different requirements of the customers.

SDJ450H: New model of spreader, light weight design, more energy saving and lower fuel consumption
Rated capacity: 45t
Application: ISO 20'/40'/45' Containers

**F Model Spreader
SDJ450F**
Rated capacity: 45t
Application: ISO 20'/40'/45' Containers

Empty Container Spreader

SANY SDJE100 spreader is applicable to the transfer and stacking of ISO standard 20', 40' and 45' container or refrigerator. It is the first of this kind spreader in China. Flexible, convenient and economic, it will be your best choice.

SDJE100H: Empty container stacking, flexible and convenient
Rated capacity: 10t
Application: ISO 20'/40'/45' Containers

Combined Spreader

SANY SDJE450P spreader is applicable to the transfer and stacking of ISO standard 20', 30', 35', 40' and 45' container and the transfer of EN284 non-stacking container. It has multiple usages, which meet the European and American intermodal working mode requirements.

SDJ450P: Workable at multi-conditions, quick response to container-aligning operation
Rated capacity: 45t
Application: ISO 20'/30'/35'/40'/45' Containers
EN284 non-stacking containers

Log Spreader

SANY SWG310 spreader is applicable to transfer, load and unload log or other special materials. This product has perfectly solved the difficulty of transporting and loading specific materials such as log, bringing high profit for customers

SWG310-R3: Highly efficient log grabs
Rated capacity: 31t Application: wood

Tilt Spreader

SANY SDJS320 spreader is designed for Reach Stacker to transport, unload container bulk materials. This product has perfectly solved the difficulty of transporting and unloading bulk materials. It fills in the domestic blank, breaks through the bottleneck of unloading bulk materials, and highly improves the efficiency and environment-protection performance.

SDJS320D: A born bulk cargo handling expert
Rated capacity: 35t Tilt angle: 0~55°
Application: ISO 20' Containers

Tube Spreader

SANY tube spreader applies to transfer and hoisting not only tube and pipe like material, but also container or bulk cargo.

STP450
Rated capacity: 45t
Application: Pipeline

SDJ400G
Rated capacity: 40t
Application: Large tube, bulk cargo

ALL FOR CUSTOMERS,
ALL FROM INNOVATION

ADD-ON OPTIONS

Function	Brand	Code	Note
Cab Reading Light	SANY	11446638	Mounted on the top of the cab
Light for the top of cab	SANY	13206545	Install 4 lights on the top of the cab to enhance the lighting in front of the cab
Rear counterweight warning light	SANY	14024064	Installed on the rear counterweight
Heat preservation device for extremely cold district	SANY	13816251	Only suitable VOLVO TAD1151 engine Use in North America, Russia, Europe, etc., where the temperature is lower than −30°C ,use heating methods of external power supply
Heat preservation device for extremely cold district	SANY	14105615	Only applicable to Cummins QSL9 IV stage engine Voltage 110V, used in North America, South Korea and other regions. using external power supply heating method
Heat preservation device for normal cold district	SANY	13816342	It is mainly used in the cold district in China. It is recommended for district where the temperature is below −5° C. It is a must for district where the temperature is below −15° C.
Spreader twist lock counter	SANY	11446031	Spreader twist lock counter meter
Engine hour meter	SANY	11446498	Hour meter for the engine’ s working hours
Amplifying alarm system	SANY	11447670	Including the amplifier and the alarm
3m range reversing radar system	SANY	61024888	Including 6 radar probes +1 camera +1 pcs 7–inch independent display, Detection distance 3 meters
5m range reversing radar system	SANY	61024886	Including 6 radar probes +1 camera +1 pcs 7–inch independent display, Detection distance 5 meters
Radio	SANY	13206553	Including radio, speaker and antenna.

Function	Brand	Code	Note
recise weighing, unbalance load detection system	SANY	14313665	Used for Sany 450FA spreader, including 7–inch display, with weighing, unbalance load detection, and printing system
Driving recorder	SANY	14105126	nstalled in the cab, the main monitoring operation, including: 7–inch LCD screen + camera + built–in 64G (expandable to 256G)
Spreader and rear counterweight camera system	SANY	14004430	Including: spreader 4 cameras, 3 meters reversing radar and reversing camera (F type spreader)
Spreader and rear counterweight camera system	SANY	14249848	Including: spreader 4 cameras, 3 meters reversing radar and reversing camera (H type spreader)
Car walkie–talkie	SANY	14105115	Digital walkie–talkie
Handheld walkie–talkie	SANY	60293871	Handheld digital walkie–talkie
Tyre monitor system	SANY	60250623	Used to monitor the tyre pressure of reach stacker
Light and heavy box selection function	SANY	14138719	The light and heavy container mode is selected through two rocker switches, to prevent incorrect container loading, and to prevent the train skins from being lifted when unloading.
Hydraulic emergency system	SANY	14318160	After the conventional hydraulic system fails, this system can realize the boom telescopic, pitch, steering axle selection, and spreader unlocking
Container weighing, voice broadcast function	SANY	14475499	Real–time broadcast of container weight during hoisting
Cab assistant seat	SANY	12774971	Cab assistant seat
Alarm lock	SANY	130907000020	t will alarm, when the seat belt is not fastened

SERVICE

Carefree Service

Quality Changes the World Service Creates value

Service vision:

Exceed customer expectation and industry standards.

Service mission:

All for client, create value for customer

Service commitment:

- (1) Reply customer within 15 minutes.
- (2) Reach main service area within 2 hours.
- (3) Solve general problems and provide regular parts within one day.
- (4) Solve customer complaints with two days.
- (5) Solve all issues within 7 days.

Service value:

Innovation、Excellence、Clients、Cooperation、Respect、Passion、Honesty、Responsibility

Service advantage:

“Professional service power” : Sany has offices in over 200 countries and regions, with 11 subsidiaries and 35 service points in domestic together. Setting up the parts warehouse can cover the world range, Forming the four in one of parts supply and guarantee system by headquarters warehouse, regional center warehouse, provincial and prefecture-level city, Accommodating 80000 kinds of parts to ensure fully customer service requirements in time.

“Professional operation and maintenance system” : Sany has invested tens of million of RMB to build “Sany Customer cloud APP” ,which enable customers to monitor the running status and parameters of the equipment in real time anywhere in the world. In addition, it provides online consultation, community communication, accessories mall, one-click repair, maintenance reservation, product knowledge learning and other value-added service. So the customer can easily enjoy the highest quality of service in any place of the world.
