Power Tolerance

Lower LCOE

N-TOPCon bifacial technology: lower degradation, higher bifaciality, ≥30 year service life and lower BOS

Lower Temperature Coefficient

lower temperature coefficient and higher power generation under high-temperature conditions.

Mechanical Load Enhanced

Certified to withstand: 5400 Pa front side max static test load and 2400 Pa rear side max static test load.

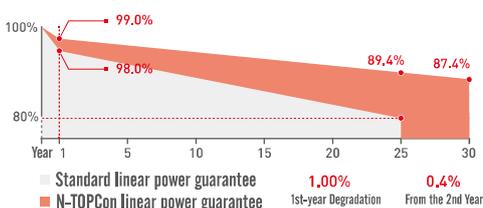

ZERO LID (Light Induced Degradation)

N-type solar cell has no LID naturally which can increase power generation.

Better Low Light Performance

Higher power output even under low-light environments like on cloudy or foggy days.

12 Years Product Material & Workmanship

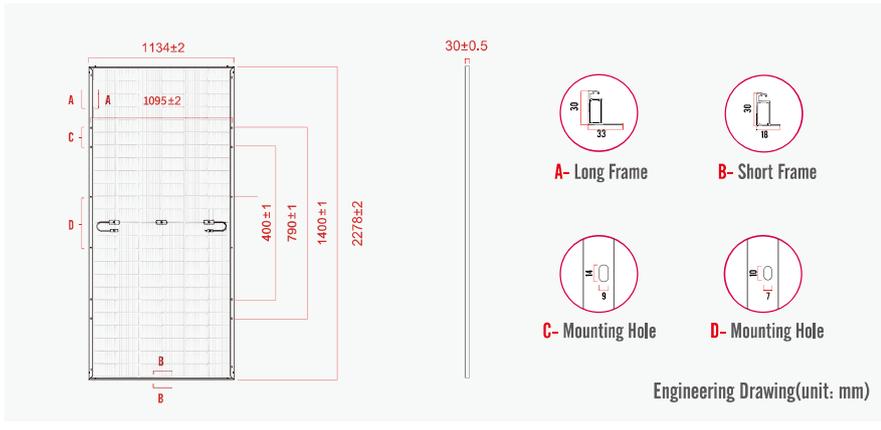

30 Years Linear Performance Warranty

Limited Power Warranty only covers the front side of Bifacial module
